- ✓ Direct advocacy with City and County elected officials

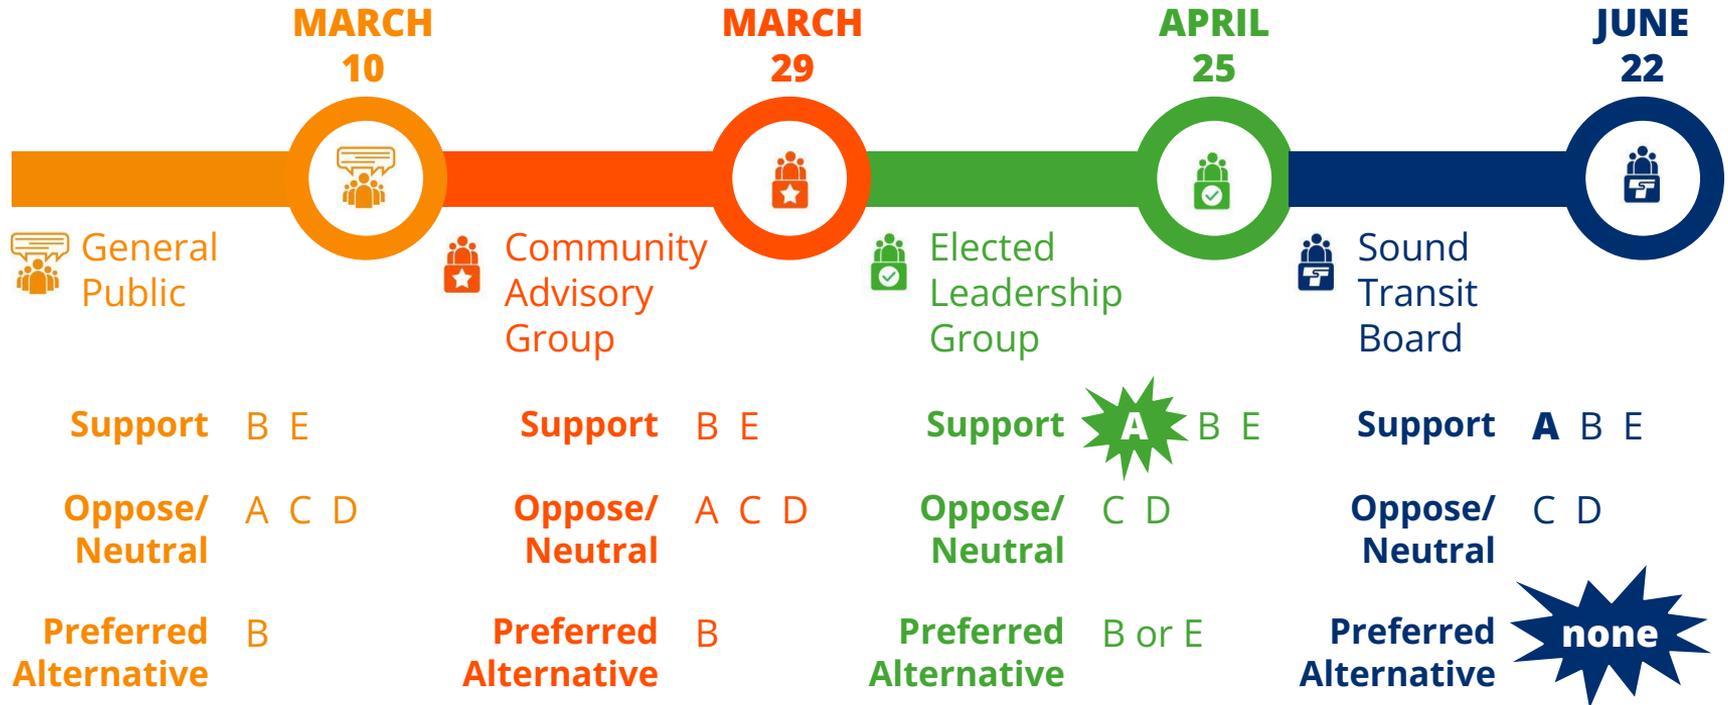

Sound Transit Board

- ✓ Station Alternative A Information Document
- ✓ Public testimony
- ✓ Comment letters
- ✓ Direct advocacy with committee chairs

City of Everett's Position

Lessons Learned

What did we learn from this process?

1. **Community representation matters**

Casino Road's voice was missing in the Community Advisory Group

2. **Develop relationships with elected officials**

Having a good relationship with elected officials is essential

3. **Be proactive**

We spent this process reacting to information; in the next phase, we should try to have a better balance between proactive and reactive action

discussion

thank you!

ALTERNATIVE E

Phase 2

Draft Environmental Impact Statement

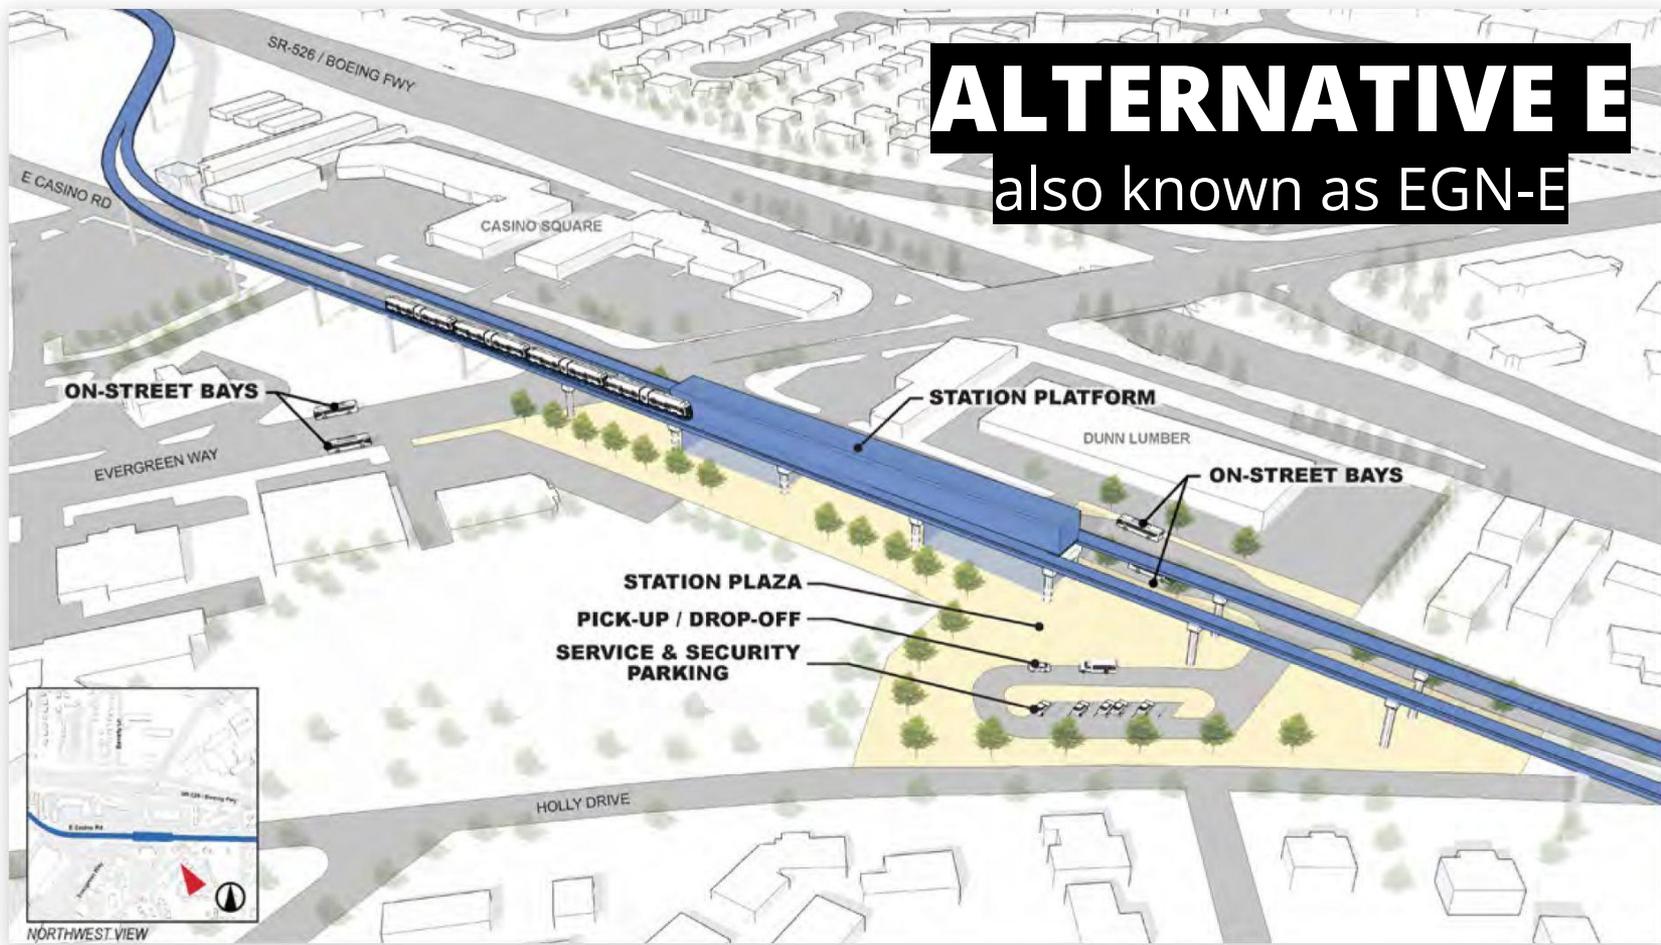

An aerial photograph of a city, likely Eugene, Oregon, showing a large, multi-story building with a grey facade and a flat roof. The building is surrounded by parking lots with several cars, trees, and other commercial buildings. In the background, there are mountains and a large body of water. A semi-transparent map pin icon is overlaid on the building, with a circular inset showing a close-up of a building's entrance. The text "ALTERNATIVE E" is written in large, bold, white letters on a black background, and "also known as EGN-E" is written in smaller white letters on a black background below it.
